

Room 202

December 9, 2015

This Friday the class will be working as engineers. They will be given the challenge to build a model of the Great Wall of China. If you would like to come in and volunteer on Friday, we would love to have your help.

With cold weather, we are finding our classroom is beginning to run low on supplies. If you would like to donate supplies, we are in need of Kleenex and band aids. We are also collecting empty soup cans for a project next week. Thank you for all of your support!

Remember to check the class Wiki for information.
